Search News

Find information and updates from our Ministerial Search Committee on their new [Ministerial Search](#) webpage. It can be reached from the Our Church drop-down menu.

Church News

Winter potluck sign-ups start THIS Sunday, January 3rd after church. While you're enjoying the hot boullion at social hour, come to the Information Table and get your name in for a group meal at someone's home. We need hosts first, then folks will sign on to bring a dish and the fun begins. More info will be available at the table. See any Welcoming Committee member for details or send us an [email](#).

A Message from the Worship Committee: Some of you may have noticed that we have been blowing out the community candle during the service-a practice that, in the past, has not been a tradition in our church. We are doing this because Joel has an allergic response to the burning candle. We want to inform the congregation of this in the event that any of you have been curious.

Newcomers' "Get-Acquainted Coffee": If you are a newcomer who has attended one or more of our services in the present or in the recent past, you're probably curious to know more about us. The Welcome Committee cordially invites you to an informal newcomers' "Get-Acquainted Coffee" before the service, in the Romer Room, at 9:15 AM, on January 10. For more information, see a committee member at the welcome table in the social room, or [email the Welcome Committee](#).

Parking Lot Snowplowing: Now that winter has finally arrived, please note that the company that plows the Historical Society/church parking lot has informed us that they will plow in

Janet Green

session

any cars left there overnight. If for any reason you need to leave your car in the parking lot during bad weather, please notify Witherhead's at 315-386-3068.

Religious Education News

This Sunday: Our children and youth will be focusing on our third principle, yearn to learn, learning about memorial rituals, reflecting on power, learning about the world's 5th largest religion and planning a worship service.

A Factoid from the Environmental Action Committee

Did you know...

That if global emissions of greenhouse gases continue at their present rate of growth, the average global temperature in 2100 is expected to be 4.5 degrees Celsius (8 deg F) warmer than in 1900? This far exceeds the current goal of limiting climate changes to 2 degrees Celsius.
